

EDUCATION AND TRAINING SCIENCES

Educator in School and Training Services

The Bachelor's Degree or Baccalaureate course in **Education and Training Sciences** via **Educator in School and Training Services** prepares educators capable of working with an integral vision of the person and of education in formal and informal structures and services for all developmental stages, with a particular focus on school and vocational training.

Career opportunities

At the end of the course of study, graduates will be able to work as:

- trainers and tutors in educational planning in cultural, leisure and sports services, in vocational training centres and in work-linked education and training programmes;
- educators in educational, school and extraschool services for inclusion and the prevention of social disadvantage and school dropout;
- educators, leaders and trainers in public and private cultural promotion centres and empowerment activities for women.

The Bachelor's Degree course programme provides the requisites for admission to the Master's Degree course in **Pedagogical Science** main filed **Pedagogist in School and Training Services** offered by the Faculty.

*bachelor's degree
or baccalaureate*

Learning outcomes

- to have acquired adequate knowledge and understanding of content and research methods in education and training sciences;
- to know how to identify emerging educational and training problems in the current socio-cultural reality and how to interpret them in the light of coherent scientific criteria and an integral vision of the person and education;
- to analyse the educational and training needs of the person and the group, that they can design and implement educational programmes for school services and vocational training;
- to have acquired the communication and relational skills necessary for team work and educational interaction both on an individual and institutional level;
- to be able to observe and evaluate educational and didactic situations also through the experience of training as a moment of synthesis between theory and practice;
- to have acquired sufficient digital competency for communication, information management and educational-didactic intervention;
- to know and use a foreign language.

Teaching and learning

The Bachelor's Degree Course covers three years, during which 180 ECTS credits must be obtained. To obtain the credits required to graduate, students must carry out the required training activities (courses, seminars and workshops) and an internship, as stated in the study programme.
